Thanks so much Jamie, these are AMAZING!!!!!! Sooo what I need right now, massively helping to alleviate my worries about my 2 year old being sat in front of the TV all the time when baby arrives :) - Amy D. I love your ebooks! They are filled with so many practical, fun and engaging activities and ideas.

I have been looking for something like your books for 3 years now since I became a full time Mum. I am quite a busy person who, to be honest, simply doesn't have the time or the energy to be super domesticated child education Mum. But these activities are really really easy to set up, and you are right, I DO have most of the stuff at home (I dont mind putting the odd thing on the grocery list for them e.g. hair gel haha), so I can actually see myself doing these things with my kids. I think you are a genius and I will be telling all my friends about these books. I also have a 6 week old baby boy so I am going to get years of use out of them. - Sarah A. Great for full time Moms/Dads to keep kids busy and learning! Helpful for working Moms/Dads to get quick ideas when they are home with them.
