# Earth Art

**Supplies:** nature

Go outside and collect various objects from nature: rocks, leaves, pine cones, dandelions, sticks, etc.

Get creative and see what you can make from the objets!

Can you create a caterpillar with rocks? A face? Letters to spell something? Try it!

### Tips:

Ask your child what is it they're creating, instead of guessing. This will give them an opportunity to talk about their design.

Create along side your child so they can see the possibilities to create.

Older kids can write their name with nature, or numbers or letters.

Challenge older kids to create a design using only 10 pieces of nature, or more specifically, 10 rocks (for example).
